**Luna de ORO II, ANCCE Approved PRE 2019 Gray
Mare**

\$ 24,000

Description

Luna de Oro II (aka Luna de Oro RDL) has it all. Great movement and conformation, brave and social temperament, proven broodmare, outstanding pedigree, regional and national champion at halter and a gold medal movement winner. Luna is triple registered, ANCCE in Spain (already approved as breeding quality), IALHA and lifetime USEF. She is heterozygous gray since her sire is our black imported 3 stamp stallion, Persiles YET. He is revised, qualified and has the very rare and prestigious Recommended Dressage Morphology stamp (48 horses out of 20,000 assessed the year he received it). The sire of Persiles is a Breed Improver in Spain (also very rare) and his dam's grandsire is a SICAB champion. Luna's sire is Kemina SW, dam of multiple national champions and daughter of multi national champion Barbican VIII. There are multiple videos of Persiles and Kemina on you tube as well as Luna and her offspring.
